Olympic Competition Format

There are three skeleton events at the Olympic Winter Games Milano Cortina 2026:

Women:	Sled maximum weight: 38kg / 84lbs Athletes and equipment maximum weight: 102kg / 225lbs
Men:	Sled maximum weight: 45kg / 100lbs Athletes and equipment maximum weight: 120kg / 265lbs
Mixed Team:	The same limits apply as those outlined for the individual events (see above).

Individual women's and men's events are held over four heats on two consecutive days, with two heats per day. Results are calculated by adding the times of all competition heats together with the lowest aggregate time winning. All 25 athletes will take part in the last heat.

At least one race heat must be conducted for the race to be officially valid. One to three of the four heats may be cancelled due to weather conditions. In the programme, there are six official training heats to be held over three consecutive days for each of the events, but some of them could be cancelled due to bad weather conditions. Athletes must have completed at least two valid training heats to qualify for the competition. Entries are limited following a quota-system per NOC.

The mixed team event is held over one heat. Results are calculated by adding together the times of the female and male team member with the lowest aggregate time winning.

Mixed team reaction start – brand new feature: Unlike the individual events, the mixed team event uses the innovative IBSF reaction start process introducing a timed, signal-based system to measure athletes' reaction time at the start. After confirming readiness, athletes respond to a sequence of five red flashing lights and acoustic signals, with the actual start triggered when all lights turn off at a randomly timed interval. The system is designed to test the athlete's reflexes while ensuring fairness through standardized timing and clear visual and audio cues. Early starts result in time penalties or disqualification, emphasizing the need for precision and control. Sensors attached to sleds help track movement at the start accurately.

Differences between the IBSF World Championships and the Olympic Winter Games

There are no differences in competition format between the IBSF World Championships and the Olympic Winter Games, but at the IBSF World Championships the qualification criteria is different, resulting in more participating sleds. Under certain conditions, the top three placed athletes at the Junior World Championships also receive an extra wild card.

Changes since the Olympic Winter Games Beijing 2022

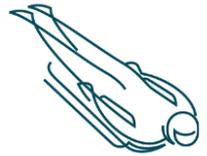

Mixed team skeleton will make its debut at Milano Cortina 2026.

As one of the newest additions to the winter sports scene (mixed team skeleton made its first appearance just two years ago at the 2023 IBSF World Championships), this brand new Olympic event is set to fascinate fans: for the first time in history, Olympic medals will be awarded in three skeleton events.

Sport Rules and Procedures

Equipment

The skeleton sled measures between 800mm and 1200mm in length and weighs up to 38kg/84lbs (women) and 45kg/100lbs (men) depending on the athlete's body weight. The sleds are made of steel and various types of fibres. Helmets are mandatory. A skin-tight fabric suit is used to increase aerodynamics, and shoes have special spike plates to help the 50 metre start run.

Competition Format and Rules

Race procedure

Athletes ride head first and face down, centimetres from the ice with hands and arms tucked behind them close to their bodies. The athlete negotiates the curved track using subtle shifts in body weight and positioning, all while reaching speeds of 110-140km/h and experiencing the force of 5Gs.

Starting order

For official training

There is a draw for the starting order of sleds for the first two training days. The starting order for the third training day is determined by the current IBSF Discipline Ranking list.

The starting order of NOCs is determined by a draw, and sleds within each NOC start in the order listed on the entry list submitted by the team captains before the draw.

On the first training day, sleds will start in the order drawn in both heats, and during the second training day they start in reverse order of the draw. The order of sleds within each NOC is the same on both days.

For competition

Individual events:

The 10 best placed athletes will choose their starting numbers from 1 to 10. All other athletes start according to the ranking in the current IBSF Discipline Ranking List from starting number 11 onwards. During the second heat, the sleds will start in reverse order according to the first race heat ranking, so from 25 to 1. During the third heat sleds will start in the ranking order after two heats, and in the last heat all 25 sleds will start in reverse order.

Mixed team:

The starting order is decided by the combined points of the female and male athletes in the current IBSF Ranking list. The team with the lowest combined points will start first, the team with the highest combined points will start last. If two or more teams have the same number of points, the highest IBSF ranking points of the female athlete will break the tie. If there is still a tie, the starting order of these teams will be drawn during the Team Captains' meeting.

The start order within the team is female athlete first, male athlete second.

Timing and scoring

Timing and scoring is provided by OMEGA in accordance with the IBSF rules and Olympic Results and Information Services (ORIS). Two independent timing systems, each consisting of at least one time measuring device, complete set of light beams and independent power supply, must be available and in operation during a competition (A and B systems).

The A system comprises all light beams for start, start time, four intermediate times, four speeds and finish time. The first interval time corresponds to the start time (50m). Four interval times must be evenly distributed among the remainder of the track. The time of day of both timing systems (A and B systems) must be synchronised and must provide accurate timing of one hundredth of a second.

Forerunners

The Jury determines the number of forerunners (also referred to as pilot sleds). The organiser must provide a minimum of five forerunners. Before skeleton races, only skeleton sleds should be used.

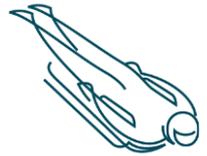

Tiebreak rules

Despite the fact that results are measured to one hundredth of a second, ties may occur.

Sleds sharing the same aggregate time are tied, and share the same rank.

Penalties and disqualification rules

During the heats, an athlete may be disqualified for various reasons. The most common ones are: overweight, runner temperature or late start.

Competition Format and Rules

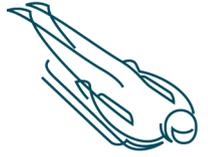

Formato e regole gara / Format et règlement des compétitions
As of FRI 30 JAN 2026

All medal-winning sleds will be checked immediately after the final heat. Upon the findings and recommendations of the materials commission, the jury may disqualify an athlete after the end of the competition.

Protests/appeals

Protests must be made to the jury. The rules state that verbal announcement of the protest must be made within five minutes after the end of the heat in which the incident occurred. Additionally, the grounds for the protest must be submitted in writing to the jury no later than 20 minutes after the conclusion of the race.
