## Competition Format and Rules

Formato e regole gara  
As of WED 4 MAR 2026

### COMPETITION FORMAT

Male and female Para snowboard athletes will compete in one of three Sport Class categories based on their functional ability: SB-LL1 and SB-LL2 for lower-limb impaired riders, and SB-UL for those with upper-limb impairments.

Para snowboarders use equipment adapted to their needs including snowboard and orthopaedic aids. Athletes will compete in two Snowboard disciplines at the Milano Cortina 2026 Paralympic Winter Games – Snowboard Cross and Banked Slalom (four medal events in each discipline).

### Events

Snowboard Cross	Banked Slalom
Men's SB-UL	Men's SB-UL
Men's SB-LL1	Men's SB-LL1
Men's SB-LL2	Men's SB-LL2
Women's SB-LL2	Women's SB-LL2

### Snowboard Cross

Seeding is based on time trials: one athlete on the course at a time completing a run to record a time. During qualification, each athlete completes a maximum of two runs down the course (or as determined by the Jury) with their better run determining the final order based on ascending time.

The elimination rounds are head-to-head races and will feature all seeded athletes.

Four competitors per heat will race. The first two athletes per heat advance from round to round as determined by their place of finish in each heat. The last remaining four athletes will race in the big final for gold, silver and bronze. The losers of the semifinals will race in the small final to determine fifth to eighth place.

The ideal snowboard cross course may allow the construction of any features excluding gap jumps, corner jumps, spines and double spines, cutting banks, giant slalom turns and negative banks.

### Banked Slalom

Each athlete completes two runs down the course with their better run determining the final order based on ascending time.

Under special circumstances, the jury may allow a format with one timed run to determine the final results. This jury decision should be announced in the team captains' meeting before the start of competition.

There is only one rider on the course at a time. The course may be a medium pitched slope, a naturally varying terrain with plenty of bumps and dips, and preferably a U-shaped natural valley.

### Participation references

Athlete quota: 80

National Paralympic Committee (NPC) quota: An NPC may be allocated a maximum of ten (10) male and four (4) female qualification slots. Exceptions may be made via the Bipartite Commission Invitation Allocation method. An NPC can enter a maximum of three (3) eligible athletes per medal event.

Expected number of athletes: 20 female/80 male

## Sport Terminology

Terminologia sportiva  
As of WED 4 MAR 2026

Term	Definition
Adaptive equipment	Implements and apparatus adapted to the special needs of Athletes and used by Athletes during Competition to facilitate participation and/or to achieve results.
Athlete evaluation	The process by which an Athlete is assessed in accordance with the Classification Rules in order that an Athlete may be allocated a Sport Class and Sport Class Status.
Backside turn	A turn where the heel edge faces to the inside of the turn while the snowboard is riding on the heel edge. In other words, a left turn for a regular-footer and a right turn for a goofy-footer.
Bank	An inclined curve out of snow which helps to make a turn.
Bevel	The degree of angle to which the edges of a snowboard are tuned. Snowboards used for racing and carving should have a greater bevel than, say, a snowboard used in the halfpipe.
Classification	Grouping Athletes into Sport Classes according to how much their Impairment affects fundamental activities in each specific sport or discipline. This is also referred to as Athlete Classification.
Classification system	The framework used by FIS to develop and designate Sport Classes within Para Snowboard.
Corner	A jump with a sharp turn on landing.
Detune	The process of dulling, slightly, the edges of the snowboard. The most common practice is to detune the edges around the nose and tail so they do not catch in the snow.
Effective edge	The length of metal edge on the snowboard which touches the snow; it is the effective part which is used to make a turn. Therefore, it does not include the edge of the tip and tail.
Fakie	A term for riding backwards. See also: Stance.
Flex	Term used to describe the stiffness and pattern of how a snowboard flexes, i.e. stiff, medium, soft.
Free-riding	Snowboarding on all types of terrain for fun, i.e. no contests, no halfpipe, no gates, no rules, etc.
Front foot	The foot mounted closest to the nose. A regular-footer's left foot and a goofy-footer's right foot.
Frontside	The frontside of the snowboard is the side where the toes rest; the frontside of the snowboarder is the side to which his/her chest faces.
Frontside turn	A turn where the toe edge faces to the inside of the turn while the snowboard is riding on the toe edge. In other words, a right turn for a regular-footer and a left turn for a goofy-footer.

## Sport Terminology

Terminologia sportiva  
As of WED 4 MAR 2026

Term	Definition
Goofy-footed	Riding on a snowboard with the right foot in the forward position. In other words, the right foot is closest to the nose, furthest from the tail, and between the left foot and the nose.
Hard boots	Footwear designed for use in carving and racing. Boots are stiff and may use hard plastics to provide maximum support. Similar to alpine ski boots.
Helmet	A hard cover protection for the head.
Kicker	Any kind of jump (in general).
Leash	A retention device used to attach the snowboard to the front foot so that it doesn't run away.
Plate Binding	A binding system in which hard boots, similar to those used in downhill skiing, are attached to the board by a flat "plate". Similar to ski bindings. However, most snowboard bindings are non-releasable.
Protector	Plastic protection for various parts of the body (i.e. shoulders, arms, back, legs).
Rear foot	The foot mounted closest to the tail. A regular-footer's right foot and a goofy-footer's left foot.
Rear hand	The trailing hand closest to the tail of the snowboard. In other words, the right hand for regular-footers and the left hand for goofy-footers.
Regular-footed	Riding on a snowboard with the left foot in the forward position. In other words, the left foot is closest to the nose, furthest from the tail, and between the right foot and the nose.
Revert	To switch from riding fakie to forward, or from forward to fakie, usually while the snowboard is still touching the ground.
Roller	A "wave or series of waves" (gentle jumps) which the athlete can either absorb or jump.
Sidecut radius	The measure (usually in cm) of the circle radius to which the sidecut of a snowboard corresponds. A small circle or sidecut (under 900cm) will make tighter turns than a large sidecut (over 900cm).
Sport Class	A category for Competition defined by FIS by reference to the extent to which an Athlete can perform the specific tasks and activities required by a sport.
Stance	The position of one's feet on the snowboard. Includes: stance types, such as regular or goofy, and also stance specifications, such as widths and angles.
Step-down (Pro jump)	A jump where the landing is lower than the starting point.

## Sport Terminology

Terminologia sportiva  
As of WED 4 MAR 2026

Term	Definition
Step-in Binding	Binding system in which no major manual adjustment is needed to attach and detach the boot from the binding. You simply "step in" and then pull a lever or a latch to "step out". It has been developed for hard as well as soft boot binding configurations.
Step-up	A jump where the landing is higher than the starting point.
Table	A jump where the landing is on the same level or a little higher than the kicker.
Tail	The rear tip of the snowboard.
Toe edge	A snowboard has two different edges. The toe edge is the one at which the toes rest.
